Summary

Computer Science graduate from Babes-Bolyai University dedicated to learning about, designing, optimizing and implementing infrastructure technologies and integrated software solutions.

Experience:

Oct 2025 - Jan 2026: Internship at CS InnoHub

- Collaborated within an Agile team to enhance a web application for reporting urban bat sightings, improving its feature-set and usability.
- Gained hands-on experience with React, JavaScript, Java Spring Framework, and MongoDB.
- Improved my teamwork and soft skills through active participation in the collaborative development processes and different workshops.

Technical Skills:

Programming: Java, C/C++, C#, JavaScript, Python, SQL

General Tech: Linux CLI/Bash, Git, Virtualization/Containerization, Networking, Hardware management

Education

Bachelor's degree in Computer Science — October 2023 - July 2026
Faculty of Mathematics and Computer Science at Babes-Bolyai University, Cluj-Napoca

High School studies — September 2019 - June 2023
Colegiul National Radu Greceanu, Slatina

Projects and passions

Homelab:

- Architected and continue to evolve a Proxmox Virtual Environment cluster of 4 nodes consisting of a mix of enterprise and consumer hardware.
- Implemented a 3 node Linstor/DRBD cluster to provide distributed and High Availability (HA) storage.
- Gained hands-on experience in Proxmox Virtual Environment, Proxmox Backup Server, TrueNAS Scale, Nextcloud, OPNsense, Docker, Ansible and more.
- Applied core networking concepts and enterprise configuration standards to manage hardware, virtualization, and distributed services.

PSU Monitor Website:

- Designed and implemented a full-stack solution to collect and display real-time server PSU telemetry
- Engineered an IoT data pipeline using an ESP8266 via I2C communication and Arduino C for hardware-level data acquisition
- Developed the Frontend using Django (Python), HTML, and JavaScript
- More information on Github

Additional information

- Languages: Romanian (Native speaker), English (Proficient user)
